
SQL Query ERROR

Posted by DerSchlachter - 2015/07/27 14:52

Hello, i want to use the following code to show some Data on my Page

This a test in Myphp i get the correct result, if i write down the code in the article i get only the Error 1064 - You have an error in your SQL syntax

Maybe you can help me to find the right syntax.

Best Regards

Hello,

If you use a WYSIWYG editor, switch it to plain text mode and check that the plugin code looks correct. If it doesn't help, could you provide a temporary access to your J! backend by email and link to a page where the problem occurs?
