
table id={id} - Cannot reinitialise DataTable

Posted by dtws2008 - 2015/07/27 20:13

try to load via an article: {arimodule id="205" comment="ARI Smart Content - Data Table"}{/arimodule}
get this warning in a popup window: table id={id} - Cannot reinitialise DataTable. after pressing ok, I get the table. This repeats for each refresh.

I purged all the cache, changed the "fix cache" to yes in the extensions plugin, tried DOM "on load". Nothing helped.
any idea?

Hello,

Try to set "Use constant ID" parameter in module settings to "No". If it doesn't help, could you send a link to a page where the problem occurs?

Regards,
ARI Soft
