## Issues in datatable

Posted by dtws2008 - 2015/09/22 15:04

---

Hello,  
Some issues are encountered in my datatables:  
1. Although I set the responsive parameter to yes, no responsiveness occurs.  
2. I have set the scroll height parameter to some value and the scroll collapse parameter to yes. The table is totally collapsed. I only wanted to shrink the table according to the active lines.

Hello,  
  
Could you send a link to a page where the problems occur and screenshot(s) of module settings page by email?  
  
PS: Do you use the latest version of the extension?

Regards,  
ARI Soft
