Themes Posted by taoh - 2015/10/13 21:34
——————————————————————————————————————
Where do I find the themes (for Tabs) and how do I modify one to use my own colours.
Cheers Taoh
Re:Themes Posted by admin - 2015/10/14 05:31
Hello,
jQuery UI themes are used for "Tabs". Theme can be selected in "Theme" parameter on module/plugin settings page Default theme is defined on "ARI Smart Content -> Config" page in "Plugins settings -> Default jQuery UI theme" parameter.
Themes files are stored in /media/arismartcontent/jqueryui/themes/ folder.
Regards, ARI Soft
Re:Themes Posted by taoh - 2015/10/14 12:18 OK I found them, thanks. Are these standard jQueryUi themes as they seem to vary slightly from the themes at ThemeRoller? How do I go about adding a theme to ARI Smart Content? Cheers Taoh
Re:Themes Posted by admin - 2015/10/14 12:29
Read here how to add a new theme. One note, generate theme for jQuery UI v. 1.10.x in ThemeRoller.
Regards, ARI Soft
Re:Themes Posted by taoh - 2015/10/14 17:41
Hi
Sorry to be a nuisance but I've been struggling with this all day with out success.

active font color #8C2621

What I would like is a theme based on the Aristo theme but with the

active border color #8C2621 active background white
Can you help me please?
Cheers Niall http://www.ari-soft.com/images/fbfiles/images/tabcolors.jpg
Re:Themes Posted by admin - 2015/10/15 06:38
Hello,
Add the following CSS rules to a site template CSS file:
.jui-aristo Ll.ui-tabs-active.ui-state-active{border-color:#8C2621;} .jui-aristo Ll.ui-tabs-active.ui-state-active>A {color:#8C2621;background-color:#FFF;}
Regards, ARI Soft
