## Upgrade path

Posted by nickc4555 - 2016/04/17 16:13

---

I have ARI Smart Content: DataTable Pack v. 1.9.4 in a couple of sites. I want to upgrade those sites to the latest versions, but you don't seem to have an equivalent product now. Should I buy the full ARI Smart Content product instead, or does ARI Data Tables do the same job now? Also, is there an upgrade price?

Thanks  
Nick
