
Accordion content also showing up on top of site

Posted by maricopa - 2016/07/07 22:04

I am experiencing an issue where when I wrap content with the accordion tags, I do get the accordion to work within the article, BUT it also shows up at the top of my site in error. See attached image.

How can I get this to not appear at the top?

I am running Joomla 2.5.28. http://www.ari-soft.com/images/fbfiles/images/Screen_Shot_2016_07_07_at_2.png

Hello,

Could you provide a link to a page where the problem occurs?
