
header not showing in Data Table module

Posted by Marsm - 2016/10/06 08:28

Hi,

I use ARI Smart Content - Data Table module on two sites. This one is working: [click here](#)

On the second site I do the same but the header is not showing: [click here](#)

I have no idea why it isn't working.

Can you help me?

Regards,

Marsm

Hello,

A javascript error occurs on the second page. It happens because jQuery library are loaded several times. It seems this problem with "aikon preloader" extension, it loads own copy of jQuery library instead of using jQuery library which is loaded by Joomla!

Regards,

ARI Soft
