
Fancybox in smart Content scrolls to top of page

Posted by pue-des-pieds - 2017/06/21 04:58

I've got an issue with fancybox in smart content. When I click to show a picture, the page scrolls to top and shows the picture. How do I stop this from happening ? I've got the latest update and I tried it with sexybox but it did not do that. Thank youu

Hello,

Could you provide a link to a page where the problem occurs?

Regards,
ARI Soft
