
Image as HTML in data table -not in PDF

Posted by riza - 2017/12/05 13:19

Hi,
Im currently using data table, and I have a column which contains image link paths. It is formatted as HTML with the format showing as . But the image is not included in the PDF file being exported.
Can you please help me sort it out?
Thanks

Hello,

Sorry, but it is not supported by the extension.

Regards,
ARI Soft
