
Scrollbar disapeared

Posted by imaya - 2010/08/12 00:31

Hi, one more question, suddently, the scrollbar disapeared from my table and extend outside the frame boundaries. Any idea?

You can see my test site at macguide.net

I tried to change all settings for hours and can't figure it out, thank you for your support!

Hello,

Sorry for the delay. It seems this works fine now?
