SSL

_____

Hi,

i changed my website to ssl (https), but the browser does not show the secure sign.

The following file (seen in firefox website checker) in not included with https:

http://www.tv-altenkessel.de/tva/media/arismartcontent/jqueryui/themes/uidarkness/images/ui-bg_glass_20_555555_1x400.png

See attachment...

Can you please fix it?

My ARI Smart Content version is "ARI Smart Content" v. 2.2.42

Regards
Heiko http://www.ari-soft.com/images/fbfiles/images/http.gif

Re:SSL

_____

Further the link

http://www.tv-altenkessel.de/tva/media/arismartcontent/jqueryui/themes/uidarkness/images/ui-bg_glass_20_555555_1x400.png

gives a 404 status.

It must be https AND without /tva:

https://www.tv-altenkessel.de/media/arismartcontent/jqueryui/themes/uidarkness/images/ui-bg_glass_20_555555_1x400.png

Regards
Heiko

Re:SSL

_____

Oh sorry!

I think it was my own mistake...

I did fill in the false link with css...

Sorry

Regards
Heiko
