
MooTables Plugin Error

Posted by cantilever - 2010/08/17 20:39

I am receiving an error when I attempt to use the MooTable plugin. Everything seems to be installed properly and active. Could someone please advise me on a solution for this error code?

Fatal error: Class 'AriMootoolsLoaderPlugin' not found in
D:\Hosting\mysite\html\plugins\content\arismartcontent\content\ari_mootable4c6ae4b0e3969\arimootable.php(18) :
eval()'d code on line 1

Hello,

It seems you use 'ARI Smart Cotent', not 'ARI Data Tables'. Is it right?

Regards,
ARI Soft

We suppose the extension is installed incorrectly. Try to uninstall it and install it from folder. For this upload extension to your server, unzip it and use 'Install from directory' option on Joomla! installation page.
