## Fatal Error

Posted by debc1929 - 2010/08/18 20:36

---

I just installed Ari Smart Content and attempted to create a table via a csv file using ARI JCSV 2 Table.

I did not get a table but instead received the following Fatal Error:

Fatal error: Cannot redeclare class AriSimpleContentPlugin in  
/home/coyab/public\_html/cms/administrator/components/com\_arismartcontent/kernel/Components/AriSmartContent/Plugins/class.SimpleContentPlugin.php(18) : eval()'d code on line 1

I am not a coder and really have no clue what this error means.

Will someone enlighten me please?

Thanks!

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?

Regards,  
ARI Soft
