Data Table - Fixed Column

Posted by trevor_stp - 2019/02/13 23:46

_____

Is it possible to remove the horizontal scroll bar that appears (Microsoft edge) when "fixed left columns" is greater than zero. The scroll bar does not appear when viewed on a mobile device or through google chrome. Horizontal scroll is set to 'no' as well. http://www.ari-soft.com/images/fbfiles/images/fixed.png

_____

Hello,

Could you provide a link to a page where the problem occurs?

Regards,
ARI Soft
