
Renewing License

Posted by Tikva - 2010/08/26 05:28

Hi,
I've just realised that my License for Smart Content Data Table Pack has expired (by 1 day), and would like to renew it so that I can continue to receive updates for another year. From what I can gather, I can do this for half the full price, but wondered if this discount would still apply after the license has expired? Am a bit weary of adding it to my shopping cart only to find out that I'm paying full price again.....

Thanks!
