
How to influence the position of the Search Field

Posted by HeinzP - 2020/04/27 08:46

Hi there,

Just a little question:

How can I influence the position of the search field? If my screen is too small, the search field is displayed in front of the table!

Thanks for your help!

Best regards
Heinz

Hello,

Could you send a link to a page with the table? You can send it by email.

Hi there,

I did send the requested links to you by mail on 28th April 2020 10:55 CEST. Maybe you should check your spam folder if you didn't see it now?!
