## DataTable showing sql on frontend

Posted by craigy4t - 2021/01/09 16:54

---

When I use

{loadmodule 131} the datatable shows up on the front end with the mysql statement

I have attached an image capture of the result.

How do I get rid of the mysql text?

Hello,

Open "ARI Smart Content -> Data -> DB Connections" page, choose the appropriate DB connection and make sure "Debug" parameter is set to "No".

Regards,  
ARI Soft
