Tablesorter zebra effect

Posted by joecurtis - 2010/09/06 14:46
_____

I have a table which includes the header {arijtablesorter zebra=true sorting=false paging=false } but the zebra effect does not work. I also have 'zebra effect' set to 'yes' in the parameters.

I have a similar setup but with some sorting in another component which works fine .

Is there anything I can check to get the effect working.

Could you provide temporary access to your Joomla! backend by email and link to page where we can see this issue that we can investigate it?

Regards,
ARI Soft
