
Can't install... error: Non-static method AriKerne

Posted by s.ricci - 2023/03/17 12:00

I have purchased this component but when I try to install I get this error:

Non-static method AriKernel::init() cannot be called statically

The download version that's available in my Member area is 2.3.3 but, this is the latest version?

My joomla vers. is 3.10
and php 8.x

Thanks

Hello,

Unfortunately the extension is not compatible with PHP 8.x. If it is not suitable for your environment then we can provide the refund.
