
CSV Formating

Posted by tmas73 - 2010/10/15 04:14

Hi, i do wonder how can I get rid of the attached symbol and have it read the correct symbols?

Thanks http://www.ari-soft.com/images/fbfiles/images/Picture_1-21fe12b2540b996f73e8bcd0e49ce91d.png

Hello,

It seems your CSV file is stored in non UTF-8 encoding. You can save it in UTF-8 encoding or specify encoding of file with help "inputEncoding" attribute of "{aricsvtable}" tag. If you provide CSV file by email we can say what encoding this file is used.

PS: Try to add inputEncoding="ISO-8859-1" attribute to {aricsvtable} tag.

Regards,
ARI Soft
