How to make JAccordion to apper closed initially

Posted by krentzis - 2010/11/23 06:35

_____

Hello,

I have a JAccordion with 3 mouse over tabs.

when the page loads the first tab appears open...and I need it to appear closed.

Here is the script
{arijaccordion width="650" useJoomlaArticle="true" articleSortField="created" articleItemCount="3" articleCatId="2" className="NormalText"}{ariarticletemplate}{$introtext}{/ariarticletemplate}{/arijaccordion}

Can you please advice.

thanks

_____

Hello,

Use the following code:

{arijaccordion width="650" useJoomlaArticle="true" articleSortField="created" articleItemCount="3" articleCatId="2" className="NormalText" alwaysOpen="false"
active="false"}{ariarticletemplate}{$introtext}{/ariarticletemplate}{/arijaccordion}

In other words add alwaysOpen="false" and active="false" attributes to {arijaccordion} tag.

Regards,
ARI Soft

_____

Could you provide temporary access to your Joomla! backend and link to page where we can see this issue by email that we can investigate this problem?

Regards,
ARI Soft

_____

Currently you can open page with accordion in a browser, choose 'File -> Save Page As' menu item in browser's menu, choose 'Web page, complete' type, save page to disk, archive page files and send us by email. It can help us investigate this problem on our local machine.

_____

Thanks. Do the following please:

1. Download and install "System - ARI Smart Content" plugin. It can be dowloaded from "F.A.Q." tab on ARI Smart Content page. Don't forget to enabled plugin.

2. Disable "ARI Smart Content" Joomla! content plugin.

3. Open "Extensions -> ARI Smart Content -> Plugins -> ARI JQuery Loader" plugin settigns page and set "No conflict" option to "Yes".

After this try to open page with accordion.

Regards,
ARI Soft

_____

it works fine now.

I activated the ARI Smart Content plugin after doing all that in order to make it work.

thanks again for your help
