
Special symbols in CSV Table

Posted by satarielxx - 2009/01/22 20:05

i have some small problems, in a csv table i want to show a pricelist in €,

instead the €, i see ?

Any solution for this??

THX and BR ;)

Currently ARI CSV Table have problems with non-english characters but fix it in the next release of ARI Smart Content which will be available in the next week. Sorry for inconvenience.
