J CSV2 Table works only on first page of Article.

Posted by eyupo92 - 2010/12/19 20:53

This is page 1 :

http://www.muhendispc.com/program/program-icerik/program-cad-cam/126.html?limitstart=0

and this is page 2 :

http://www.muhendispc.com/program/program-icerik/program-cad-cam/126.html?start=1

Originally I had put the table on page 3, but it did not work, so I tried to put it on page 2, it does not work either. It only work on page 1.

This is the html :

{arijcsv2table url="http://www.muhendispc.com/files/yazilar/program/cadcam/pm2010tumutf.csv" select="0,1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16,17,18,19"}

{ddtoc_break title=TNCEm SonuD.lar1 0D.eren Tablo&heading=Powermill 2010 Performans 0ncelemesi}

{arijcsv2table url="http://www.muhendispc.com/files/yazilar/program/cadcam/pm2010tumutf.csv" select="0,1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16,17,18,19"}

{ddtoc_break title=SonuĐ· ve Dineriler}

I guess this is due to ddtoc_break plugin breaking the functionality.

By the way : WHY DON'T YOU CODE A REALLY WORKING TOC TOOL IMMEDIATELY ?

Since there is no TOC offering at least this functionality, I have to use ddtoc_break.

Can you help me ASAP ?

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue and provide solution?

Regards, ARI Soft
