
Change scale ARI JDATA VISUALIZER

Posted by clioschrotter - 2010/02/12 17:06

Hello,

it would be great to have the possibility to change the scale of a chart.

E.g. I have 9 line with values between 140 and 200. Right now the chart shows a scale from 0 to 200, but I want to change it to 120 to 210. This would show the data more clearly arranged.

Kind regards,
clioschrotter
