
save last active tab to cookie from jtab

Posted by mniederm - 2009/01/23 22:28

Hi, it would be great if this will work.

Currently this ability is not implemented. But you can submit feature request and we can add new property for saving last active tab to cookie and read it after reload.

thx Michael

Re:save last active tab to cookie from jtab

Posted by admin - 2009/01/28 02:09

Hello,

We are glad to announce that ARI Smart Content 1.5.0 is available. It contains improved version of ARI JTabView. Now, you can save last active tab using 'saveState' parameter.

Regards,
ARI Soft

Re:save last active tab to cookie from jtab

Posted by mniederm - 2009/01/28 18:24

Hi,

which parameters do I have to set when I want to use this function?
I set the save state to yes but this is not working, do I have to set other parameters too? Cookie path Cookie domain??
And if yes which values do I have to enter where.

Michael

Re:save last active tab to cookie from jtab

Posted by admin - 2009/01/29 10:35

We have received your letter and investigated your issue. Check the mail, please. And you can download the latest version of ARI Smart Content through 'Member Area', it contains fix for session state cookie in ARI JTabView.

Regards,

ARI Soft

Re:save last active tab to cookie from jtab

Posted by mniederm - 2009/01/29 12:22

I have installed the new version and now the tabs are one after the other and not below each other.

Please check: <http://www.aktionsfinder.at/aktionsfinder/alle-aktionen.html>

Re:save last active tab to cookie from jtab

Posted by admin - 2009/01/29 12:35

This problem appears because of your caching system.

Regards,
ARI Soft

Re:save last active tab to cookie from jtab

Posted by mniederm - 2009/01/29 13:19

What does that mean, if I want to use this feature I have to switch of caching and get therefor very long loadtimes????????? Pleas answer more detailed

Re:save last active tab to cookie from jtab

Posted by admin - 2009/01/29 13:26

Please, undertand that plugins of ARI Smart Content using JavaScript for interaction with user. Some of plugins create unique values for correct work from load to load. When you switch on cache then conflict with this unique values appears. We can offer add some new parameters to common plugins where you can type this unique values manually.

Regards,
ARI Soft

Re:save last active tab to cookie from jtab

Posted by mniederm - 2009/01/29 13:27

Now I switched caching off and it's the same error as I described it beforehand. Please check it.

Re:save last active tab to cookie from jtab

Posted by admin - 2009/01/29 13:34

It seems that cache is enabled. You can see it if you go to 'Tools->Clean Cache' on your Joomla backend. If you delete cache files and reload page on forntend then files appear in cache again.

Re:save last active tab to cookie from jtab

Posted by mniederm - 2009/01/29 13:46

I deactivated now the cach plugin and nothing is cashed now and the error is still:angry:

Re:save last active tab to cookie from jtab

Posted by admin - 2009/01/29 14:05

It happens because ARI JQueryLoader is incorrectly installed. It can't load library for working with cookie. We wrote about this before you, in a letter. Please, check that directory /plugins/content/arismartcontent/system/ari_jquery_loader4957ec740fdd3/js/1.2.6/jquery.cookie.min.js has appropriate permissions.

This should contain jquery.cookie.min.js file.

=====

Re:save last active tab to cookie from jtab

Posted by mniederm - 2009/01/29 15:34

Hi, that directory contains this file.
The directory /plugins/content has the highest permissens 777.
For the arismartcontent directory folder I can't change the permission.

Now ????

Re:save last active tab to cookie from jtab

Posted by admin - 2009/01/29 20:13

Try load in browser the following page
http://www.aktionsfinder.at/aktionsfinder/plugins/content/arismartcontent/system/ari_jquery_loader4957ec740fdd3/js/1.2.6/jquery.cookie.min.js , it display 406 error, this error of your web server, resolve it, please.

Re:save last active tab to cookie from jtab

Posted by mniederm - 2009/01/29 20:28

I sent you a mail with a screenshot that you can see that the file exists. Please see your inbox info@ari-soft.com

=====

Re:save last active tab to cookie from jtab

Posted by admin - 2009/01/29 20:35

Ok, but try it load in browser. It shows 406 HTTP Error. This error occurs on your HTTP Server (Apache). This isn't problem of ARI Smart Content, this problem of your web-server. Please, contact with your hosting support that he resolve this issue.

=====

Re:save last active tab to cookie from jtab

Posted by admin - 2009/01/29 20:41

Rather incorrectly configured filters of mod_security module for Apache. Apparently, they are responding incorrectly to the files containing 'cookie' in name.

Re:save last active tab to cookie from jtab

Posted by mniederm - 2009/02/06 07:33

Hi, now I talked to my provider, and he tells me that this is not a wrong configuration, it is because of the file rights.

You tell me it is a problem of the provider and he tells me it is a problem of ari soft, not really good for me.

Ok, you told me some messages before that I should rename the file, this didn't work because these files are somehow protected. Also I can not change the rights of the file because this is protected. So I think the protection comes from your side, could you please solve the problem!!!!

This is the mail from my provider, it is in German, but I send it to you nevertheless.

Sehr geehrter Hr.Niedermoser,

hier handelt sich nicht um einen Serverfehler sondern um Dateirechte.
Stellen Sie so ein, dass die Skripten und Dateien Leserechte haben.
Also entweder 0664 oder 0666 und dass die alle Dateien zu dem User "aktionsf" gehören.

Re:save last active tab to cookie from jtab

Posted by admin - 2009/02/06 08:18

Hello,

It's strange because all files are copied exactly the same way. And all other files are available, only it is unavailable. ARI Smart Content don't set specific permissions for this file. Can you provide FTP access to your site by email?

Regards,
ARI Soft

Re:save last active tab to cookie from jtab

Posted by admin - 2009/02/06 12:52

We have investigated this issue again. We load 'jquery.cookie.min.js' file to root of your web site and set permission 0777. We do it only for testing purpose, but you can see 406 HTTP error (<http://www.aktionsfinder.at/aktionsfinder/jquery.cookie.min.js>) if you try load this file through browser. It occurs because incorrectly configured filters of mod_security module for Apache. As you can see, permissions to file is not with it.

Regards,
ARI Soft

Re:save last active tab to cookie from jtab

Posted by mniederm - 2009/02/09 21:50

:laugh: Hi, now my provider switched of the securmod .. and it works. Thank you, there is only one question left, my provider told me that he is not happy with switching ..mod.. off, because now my site is less protected then before, and it would be possible to code some cookie thing like this also with working modsecure???

=====

Re:save last active tab to cookie from jtab

Posted by admin - 2009/02/09 21:54

Hello,

It seems that your provider can't tune mod_security. We can offer rename jquery.cookie.min.js file in the next version of ARI Smart Content.

Regards,
ARI Soft
