Up arrow

Posted by tradesadvisor - 2011/01/15 23:14

_____

Hi there,

I've installed the module but there does not seem to be an up arrow on the module, only a down arrow. Can you tell me how an user would scroll back up?

Many thanks,
Gavin

url is www.tradesadvisor.com

_____

Hello,

Try to add the following CSS rule:

#ariyui249 .topscrollbar
{
 display: block;
}

Regards,
ARI Soft

_____

Hi there, sorry. I'm unfamiliar with coding. Which file would i add this to and where would I find this file. And where about in the body of the text would I insert that?

Thanks again,
Gavin

_____

To "CSS Styles" parameter in module settings.

Regards,
ARI Soft
