
installation issues

Posted by Cath27 - 2011/01/17 16:33

I downloaded and installed the YUI menu. I made it active and assigned a position, but there has been no change in my menu. I did make the default menu inactive.

What am I missing?

Hello,

Provide temporary to your Joomla! backend by email or screenshot(s) of module settings page that we can investigate this problem.

Regards,
ARI Soft
