Horizontal menu > sub > sub missing (not visible)

Posted by ronrattie - 2011/01/21 05:08

_____

Okay, so I have a website: www.keya.com

I am trying to get the sub menu of the sub menu to show up.
I can see in the code that the menus are there, but just not visible.

It wasn't a requirement when I first made the site, so wasn't an issue, but not it is required... Is it in my CSS?

Thanks!

_____

Hello,

This is a problem with site template CSS styles. Open site template CSS file (/templates/keya/css/template.css), find the following code:

```
#pillmenu li ul {
    background: none repeat scroll 0 0 #E0E0E0;
    border-bottom: 1px solid #CCCCCC;
    border-left: 1px solid #CCCCCC;
    border-right: 1px solid #CCCCCC;
    display: none;
    height: auto;
    opacity: 0.95;
    position: absolute;
    width: 225px;
    z-index: 200;
}
```

and replace it with:

```
#pillmenu li ul {
    background: none repeat scroll 0 0 #E0E0E0;
    border-bottom: 1px solid #CCCCCC;
    border-left: 1px solid #CCCCCC;
    border-right: 1px solid #CCCCCC;
    /*display: none;*/
    height: auto;
    opacity: 0.95;
    /*position: absolute;*/
    width: 225px;
    z-index: 200;
}
```

Regards,
ARI Soft

_____

Thanks! that did the trick in Firefox, Chrome/Safari but in IE7 the menus don't have a background except right around the

words.

_____

Try to add the next CSS rule:

#pillmenu .yuimenu UL LI A.yuimenuitemlabel
{
 *display: block;
}

_____

Can try to help if you provide temporary access to your Joomla! backend by email.

_____

That did it!

So what did you change that time?

_____

Okay, one more quick question (split this off if you wish)
Is there a way to make the drop down menus resize (horizontally)for menu item labels that are long (example:
'Independent Verification and Validation Studies')?

_____

Sorry, but the module doesn't provide this ability.
