
Centering the menu

Posted by ranman13 - 2011/02/06 22:17

Great Mod! Thank you, I gave it a good review on Joomla extensions page!

In reference to a post 3 months ago: <http://www.ari-soft.com/ARI-YUI-Menu/8341-How-to-center-just-the-menu-items.html>

I also am trying to center my "Bottom Menu" on my site.
It is <http://www.randyhunt.biz>

Can you please help me figure out how to CENTER the menu, and make it look better? (I don't want the white box to be the entire width of the page.

It is the BOTTOM menu :)

ARI YUI Menu 1.0.17
Joomla: 1.5.22
Gantry: 3.1.6
RocketTheme Template: Jan 2011 Maelstrom
Hosting: 1and1.com
Server: Apache Server
PHP Version: 5.2.17

Website: <http://www.randyhunt.biz> (development server)

Thank you all so much,
Randy

Hello,

Add the following CSS rules to "CSS Styles" parameter in module settings:

```
#ariyui181
{
    text-align: center;
}

#ariyui181 .bd,
#ariyuimenu_ariyui181
{
    display: inline-block !important;
    *zoom:1;
    *display: inline !important;
}
```

Regards,
ARI Soft
