
menu is showing inactive/unpublished menu items

Posted by dewinky - 2011/02/07 11:15

Hi there, i am very much getting to like your module..just a couple issues i am wondering if u can help me with?

1. the module is publishing inactive (unpublished) menu links (myinfo).
2. how do i remove the extra blank space to the right on the right? it seems like it created a space for another item.

Hello,

1. What is menu type of "My Info" menu item and access level?
2. Could you provide link to page where we can see the menu on your site?

Regards,
ARI Soft

type: Community Builder User profile
access: registered

it was showing my "forum" menu item before i published it and its access level was public.

i will send u the info to get my site in a pm.. can you email me so i can give the information..

Thanks

Add the following code to "CSS Styles" parameter in module settings:

```
#ariyuimenu_ariyui55
{
  display: inline-block !important;
  *zoom: 1;
  *display: inline !important;
}
```
