
each menu in different line

Posted by manju - 2011/02/14 07:14

hello

very thanks for ur great module, but i have a problem, each menu item is displaying in different lines in headline module position. i have to make it in sigle line as we are commonly seing home,about us,contact us...plz help

Hello,

Provide link to page where we can see this problem.

Regards,
ARI Soft

In this case your provide page files by email, this process is described here. Otherwise we can't help because it seems this problem with site template styles and we need to investigate it.
