Forcing Submenus to stay visible longer
Posted by rowby - 2011/02/16 22:55
_____

Hi

Please look at this site, using the ARI YUI menu, Version 1.0.17

http://www.airportvanrental.com/

I am having issues with the submenus closing too quickly to click on the sub links.

You can see the issue particularly in the Locations menu item.

I even tried setting the Hide delay to 7500 but that didn't seem to affect anything.

Any suggestions?

Thanks!

Hello,

Add the following CSS rules:

#phoca-wrap DIV#header-container
{
 position: relative;
 z-index: 10;
}

DIV#phoca-side1-bg
{
 position: relative;
 z-index: 1;
}

Regards,
ARI Soft
