
Remove Separator in Vertical yui menu

Posted by wilsonclocks - 2011/02/21 20:30

I cannot seem to hide the separator in a vertical menu.

I made this change in my menu.css:

```
.yui-skin-sam .yuimenunav .yuimenuitem { border-bottom-style: none; border-top-style: none; }
```

That didn't work.

I have this in my css to remove the outer border:

```
body .yui-skin-sam .yuimenu .bd { border-style: none; }
```

```
body .yui-skin-sam .yuimenu .bd .bd { border-style: solid; }
```

That works.

any ideas? <http://www.ari-soft.com/images/fbfiles/images/separator.gif>

Hello,

Provide link to page where we can see the menu on your site.

It seems your menu contains "Separator" menu item between "Informed Consent (IC)" and "Biological Specimens" menu items. Disable separator menu item that remove separator in menu on frontend.

Oh thank you, you are right. That is so embarrassing. I didn't know my admin put an empty menuitem in there....

You always have my vote.

Thanks again
