
Hand as \"pointer\" to show up in Firefox and Chrome

Posted by rowby - 2011/03/31 21:36

Hi

Using Ari menu version 1.0.17 on this temporary test site:

<http://garagehaul.com>

I am trying to get the HAND POINTER to show in the DROP DOWNS in Firefox and Chrome (works fine in Internet Explorer).

The hand is showing fine in the main menu, but when you click on Locations (for example), and hover over the drop down menu items the hand is lost and becomes a pointer.

Here is my current code in the module: (I made some other css changes elsewhere regarding cursor but I don't think they are affecting the ari menu :)

Again, it works fine in Internet Explorer. Only problem is in firefox and chrome.

```
#ariyui96.yui-skin-sam ul li a.yuimenuBarItemLabel, #ariyui96.yui-skin-sam ul li a.yuimenuBarItemLabel:link, #ariyui96.yui-skin-sam ul li a.yuimenuBarItemLabel:visited, #ariyui96.yui-skin-sam ul li a.yuimenuBarItemLabel:hover {
    border-color: #104473;
    border-style: solid;
    border-width: 0px 0;
    color: #ffffff;
    cursor: pointer;
    font-size: 93%;
    line-height: 2.3;
    margin: 0px 0;
    padding: 0 20px 0 10px;
    text-decoration: none;
}
.moduleTable_Rowbyairyui .yui-skin-sam
{
    display: -moz-inline-stack;
    display: inline-block;
    zoom: 1;
    *display: inline;
}
#ariyui96.yui-skin-sam DIV.yuimenuBar,
#ariyui96.yui-skin-sam DIV.yuimenuBarNav .yuimenuBarItem:last-child
{
    border-right-style: none;
}
```

Someone suggested I add code like below, but am not sure if I should do that.

```
li .yuimenuItemLabel
{
    cursor: hand;
    cursor: pointer;
}
```

Any suggestions?

Thanks for the wonderful menu

Hello,

Add the next CSS rule:

```
body #ariyui96.yui-skin-sam ul li a.yuimenuitemlabel
{
  cursor: pointer;
}
```

Regards,
ARI Soft
