
Sub menu styling

Posted by boerenooi - 2011/04/14 11:54

Can you please point me into the right direction of which class I should edit to change the bg color of the vertical sub menu? I have the safe_menu.css open here, and it's really hard to find the styling for the sub menu. Thanks.

Here is a link to my site <http://boerenooi.za.net/>

Add the next code to "CSS Styles" parameter in module settings:

```
DIV#{$id}.yui-skin-sam DIV.bd DIV.bd,
DIV#{$id}.yui-skin-sam DIV.bd DIV.bd LI
{
    background-color: red;
}
```

```
DIV#{$id}.yui-skin-sam DIV.bd DIV.bd LI.yuimenuitem-selected
{
    background-color: #b3d4ff;
}
```

So I'm trying to put an image as a background in the sub menu, but it does something weird, its almost as tho the images is in the front? Here is my code.

```
DIV#{$id}.yui-skin-sam DIV.bd DIV.bd,
DIV#{$id}.yui-skin-sam DIV.bd DIV.bd LI
{
    background:
url(http://www.boerenooi.za.net/modules/mod_ariyuimenu/mod_ariyuimenu/js/assets/menu/sam/subbg.png);
color: #fff;
}
```

Add the next code to "CSS Styles" parameter:

```
body #$.yui-skin-sam DIV.bd DIV.bd a.yuimenuitemlabel
{
  color: #FFF;
}
```

Hi, thank you for the reply, although that didn't change anything.

I also need to put a 33px left margin next that that sub menu. Just don't know where to put it in.

Sorry, typo in the previous post. Use the next code:

```
body DIV#$.yui-skin-sam DIV.bd DIV.bd a.yuimenuitemlabel
{
  color: #FFF;
}
```

Regards,
ARI Soft

Ah, I figured out the margin issue. But look at what it looks like now. I need the arrow to be totally on the left.
<http://boerenooi.za.net/> something is overlapping there.
