## Submenu is not displayed

Posted by Pojapejo - 2011/05/04 20:28

---

The main menu of the ARI YUI Menu is displayed, but the submenu is hidden behind the background.

I searched this forum and read that more people had this problem, but I could not find a solution for my problem.

Can you have a look and help me out?

Hello,

Add the next CSS rules to site template CSS file or to "CSS Styles" parameter in module settings:

```
body #top,  
#top .float-left  
{  
  overflow: visible;  
}
```

```
#top  
{  
  z-index: 10;  
  position: relative;  
}
```

```
#middle  
{  
  z-index: 1;  
}
```

Regards,  
ARI Soft

Wow! How fast can you react?

It works, great! Thank you very much!
