css file name

Posted by mbehr - 2011/05/18 19:47

_____

What is the file name of the CSS file and where is it that you put the following into:

body #ariyui214.yui-skin-sam li.yuimenuitem
{
 border-bottom: 1px solid red
}

_____

You can custom CSS rules to "CSS Styles" parameter in module settings.

_____

Thanks a lot. I must be blind in one eye and just can't see out the other. I never saw the CSS box in the mod manager.
Thanks again, Michael
