
white space to right of menu

Posted by mbehr - 2011/05/19 17:13

I have read a number of questions that seemed related to my problem but none worked. I have a white space to the right of my menu and can't get rid of it. Remember I know nothing so please spell out the instructions. Thanks, Michael

Hello,

Provide link to page where we can see the problem.

Regards,
ARI Soft

It is not on-line. Can I send you something else?

You can send page files of a page with the menu by email. This process is described here.
