
Dots in Vertical Menu

Posted by mnc2011 - 2011/06/04 14:56

I have tried all the solutions to remove the dots in the vertical menu and cannot get them to look like the menu on the demo page here:

<http://www.demo2.ari-soft.com/ari-yui-menu.html>

If you need the website, please give me your email and I will send you the url

Thanks for the great menu

I solved the problem, I used

```
.yuimenu ul li
{
  background-image: none;
}
```

to remove the dots and also

```
body div#{$id} div.yuimenu .bd
{
  border-style: none;
}
```

to remove the border, both worked
