## Menu items hidden behind the content!

I used the artisteer software to draw the layout of the site following <http://www.grupotaiyo.com.br>. But the vertical sub menu insists on hiding behind the content.

Appreciate the help!

Hello,

Add the next CSS rule:

```
body .art-sidebar1
{
  position: relative;
  z-index: 10;
}
```

Hello,

This problem with site template styles, add the next CSS rules:

```
body div#contenttop,
body div#contenttop .float-left
```

```
{
overflow: visible;
clear: both;
}
```

```
#content-shift .floatbox
{
clear: both;
}
```
