
Submenu position

Posted by Paz - 2011/08/09 14:57

Hello,

First of all, thank you for your module, it is great!

After hours of playing with the CSS I've managed to change most of the things I wanted (color, font, margins), but I have still 2 problems which I just can't not solve:

1. the position of the submenu. This appears half way the main menu and I would like to move it down (see screenshot)
<http://www.ari-soft.com/images/fbfiles/images/screenshot.jpg>
2. I would like to remove the gray border of the submenu

Could you help me? The site is <http://vanschagenarchitekten.com/joomla/>

Thanks!

Hello,

Sorry, but we can't open provided page. 403 error appears.

Regards,
ARI Soft
