## Css not loading

Posted by NicolaHWS - 2011/08/25 18:12

---

hi, I've installed this module and I FINALLY have drop down menus! Problem is, I can't seem to style them at all! I've worked with CSS before but I've changed it in the template css file and tried adding it to the module css box but it's not working. Should I be using a different class tag? I've told the module to use nav and used #nav in the css.

Any help would be greatly appreciated!

Hello,

Information about menu styles can be found [here](#).

Hi

Still not really making head nor tail of the documentation. I'm trying to switch all the borders off - here's the CSS I'm using:

```
#nav {
width: 930px;
height: 35px;
background: #005aab;
list-style: none;
float: left;
padding-left: 30px;
padding-top: 5px;
padding-bottom: 5px;
margin-top: -10px;
border: 0;
border-top: 0;
border-bottom: 0;
border-left: 0;
}

#nav ul {
background: #005aab;
border: 0;
}

#nav ul li {
background: #005aab;
font-family: "Arial Rounded MT Bold";
font-size: 17px;
color: #fff;
border: 0px;
}

#nav ul li a {
background: #005aab;
```

```
        color: #fff;
        border: 0;
    }

    #nav ul li a:hover {
        background: #ffdf7a;
        color: #000;
        text-decoration: none;
        border: 0;
    }

    #nav ul li a:selected {
        background: #005aab;
        border: 0;
    }
}
```

I'm still seeing a left border beside my first menu item and a top and bottom after the last menu item on the right. Am I missing something in my CSS?

Hello,

Provide link to a page where we can see the menu on your site?

Add the next CSS rule:

```
body .yui-skin-sam .yuimenu .bd
{
    border-style: none;
}

.yui-menu-shadow
{
    display: none !important;
}
```

Regards,

Thanks

with some tinkering with that, I got it working. Thanks for all your help
