
Second Item in Sub Menu doesnt

Posted by Farmia - 2011/09/13 08:07

Hi ,

Second item in menu is not functioning, in horizontal direction, where as it is function in vertical menu direction , can any one help???

here is the link of the page

http://www.deraywal.com/index.php?option=com_expose&Itemid=30

If you roll over Seraiki Categories , it shows a sub item "afsanay", in these sub men item there are two further items...out of these two first link is working while other is not (while menu direction is set to horizetal) , can any help please

=====

Hello,

This problem with site template styles. Add the next CSS rules to fix the problem:

BODY .art-Block

```
{  
  z-index: 2;  
}
```

BODY .art-contentLayout

```
{  
  z-index: 1;  
}
```

Regards,
ARI Soft

I am having the same issue. Any ideas? Seems like it could be something simple. Maybe a joomla 1.7 setting?

Hi ,

Any suggestions regarding joomla 1.5/1.6 templates supporting drop down menu ?

Regards
