
Seb muneus in inter explorer and firefox

Posted by Farmia - 2011/09/15 06:55

Hi ,

<http://nextgensolutions.com.au>

the above mentioned site has ari yui menu , it shows sub menu vertical in fire fox and horizontal in internet explorer? how to fix this problem.

Thanks and regards

Hello,

This problem with site template styles for default menu. We can recommend to open index.php file from site template and replace the next code:

with the following code:

Regards,
ARI Soft
