Vertical menu - change arrow direction.  Posted by betsmart - 2011/09/17 00:29
I would like to use the menu module to open in the Right module position. Is there a way to have the arrows point left and have all sub menus open to the left? Thanks in advance.

Hello,
Sub-menus can be shown at left side, for this set "Submenu alignment" parameter to tr,tl value, but if you want to show sub-menu arrows at left side, it requires custom modification.

To clarify, the arrows that point to the right on 1st level/parent menu cannot be changed to point to the left? Thank you for your help.

Can the arrows be removed?

Provide link to a page where we can see the menu on your site.
