Hello,

The menu looks centered.

It looks centered because I played around with the buffer sizes until it worked. I would much rather just have it centered, so that I do not have to go through this trial and error game every time that I make a change.

_____

Add the next CSS rule:

```
#ariyui84_menu UL.first-of-type
{
 display: inline-block;
 zoom: 1;
 *display: inline;
}
```
