Hover problem in ie Posted by gennie - 2011/11/07 14:04
Hi,
I have a problem in ie8. In Firefox my menu hover is light grey when i scroll over the menu items, but in ie it is only hightlighted if I hover in from the side or from the top for the first item and from the bottom for the last item, but won't change color if I hover down the list. It's really weird, i can't work out how to fix it.
http://universalcrm.co.uk/casamancini/index.php/bespoke-furniture
Thanks
Gennie

Hello,
It can be a problem if incorrect HTML code is used on provided page or it is a conflict with a 3rd party extension.
Regards, ARI Soft
