
Drop down menu

Posted by tamimike - 2011/11/15 17:12

ARI YUI drop down menu wont' work, I saw in another thread that the CSS style {
overflow: visible;
}

should be added to the mod parameters, I just can't figure out where the appropriate place is to place it in my template.

Hello,

Where we can see the problem?

Regards,
ARI Soft

Add the next CSS rules to "CSS Styles" parameter in module settings:

```
#sgmenu
```

```
{  
  position: relative;  
  z-index: 2;  
}
```

```
body #sgmenu ul li ul
```

```
{  
  position: relative;  
  visibility: visible;  
}
```

```
#rotator
```

```
{  
  position: relative;  
  z-index: 1;  
}
```

Regards,
ARI Soft
