

Shift Horizontal menu position

Posted by bhrt60 - 2011/11/22 14:41

Hi

I have Rounded border on my page so I need to shift the Horizontal menu position say 5px or 10px to the right and same down

Looking at various posts I tried:

```
body .yui-skin-sam .yuimenu
{
padding-top: 10px;
}
```

but this shifts the Verticle Menu!
the Horizontal menu is uneffected!!

Hello,

Provide a link to a page where we can see a menu and a screenshot where we can see what do you want to achieve.

<http://www.logicalmicro.net/demo1>

I just need to shift the Horizontal menu to avoid the rouded edge.

I think 5px to the right 5px down would do

Add the next CSS rules:

```
#ariyui39_menu
{
margin-top: 5px;
margin-left: 5px;
}
```

thanks

5px was too much I changed it to 2px

I didn't spot the menu background extends all the way cross!

is there any way to remove the background colour ??

alternatively make the Horizontal Bar height same size as buttons - by say say 2px

(rounded edge would be nice too but...)

=====

You can use the next CSS rule to remove menu container background:

```
body #ariyui39.yui-skin-sam .yuimenubar
{
background-image: none;
border-style: none !important;
}
```

Thank you

one last question I hope

How can I make the background colour say #cccccc instead of white??

Try to add the next CSS rule:

```
body #ariyui39.yui-skin-sam .yuimenubar LI
{
background-color: #CCC;
}
```

Hi

I managed to make some changes with your help

how can I remove the border on the buttons ?
(I managed to remove some borders...)

this is the CSS

```
#ariyui39_menu
{
    margin-top: 5px;
    margin-left: 5px;
}
body #ariyui39.yui-skin-sam .yuimenubar
{
    background-image: none;
    border-style: none !important;
}

body #ariyui39.yui-skin-sam .yuimenubar LI
{
    border-style: none !important;
}

body #ariyui39.yui-skin-sam .yuimenubar UL
{
    background-color: #64a9b4;
    border-style: none !important;
}
```

Add the next CSS rules:

```
.yuimenubar LI A,
.yuimenubar LI .bd
{
    border-style: none !important;
}
```
