help with top menu and main menu
Posted by yjiang92131 - 2011/11/24 05:51

_____

Hi,
I setup two menu with YUI menu in joomla 1.7, one is the top menu above the header, and the other is in position-2.
1, the top menu has top and bottom borders, how can i remove them ?
2, the middle main menu is shorter then header, is it possible to make it's background match to header ?
3, also there is gray background between header and main menu, how can i remove it.

web link: http://www.aprexbio.com/apx.

Thank you in advance.

Best.

yong

_____

Hello,

1. Add the next CSS rules:

body #ariyui80.yui-skin-sam .yuimenubar,
body #ariyui80.yui-skin-sam .yuimenubar .yuimenubaritemlabel
{
 border-style: none !important;
}

2. Could you provide a screenshot where we can see what do you want to achieve?

3. Add the following CSS rule:

body #ariyui80.yui-skin-sam .yuimenubar .yui-menu-shadow
{
 display: none !important;
}

Regards,
ARI Soft

_____

It is limitation of site template HTML layout and styles. You can contact site template developers and ask this question.

Regards,
ARI Soft
